II. Basis for Jurisdiction

Federal courts are courts of limited jurisdiction (limited power). Generally, only two types of cases can be heard in federal court: cases involving a federal question and cases involving diversity of citizenship of the parties. Under 28 U.S.C. § 1331, a case arising under the United States Constitution or federal laws or treaties is a federal question case. Under 28 U.S.C. § 1332, a case in which a citizen of one State sues a citizen of another State or nation and the amount at stake is more than \$75,000 is a diversity of citizenship case. In a diversity of citizenship case, no defendant may be a citizen of the same State as any plaintiff.

What is the basis for federal court jurisdiction? *(check all that apply)*

- Federal question Diversity of citizenship

Fill out the paragraphs in this section that apply to this case.

A. If the Basis for Jurisdiction Is a Federal Question

SECTION III: STATEMENT OF FACTS

From June 2020 to the present, META PLATFORMS, INC., has shared my personal information with third parties who were not legally able to receive information about me. I contacted Meta Legal via email to notify them of the ONLY authorized personnel that could receive information about me from the Meta Database, and they continued to share information with unauthorized personnel. Meta legal was also notified that I was being stalked by several people using their platforms. I notified the authorities, and when I notified Meta of who they could be legally contacted by about me, they removed some of the information from my private messaging without my permission. I requested it be placed back on to the server, since I did not authorize the removal of the information, and that is when I no longer heard back from Meta Legal. The messages never reappeared. They are in breach of contract with their user agreement with me as an account holder and as a Pro Se litigant in a different civil case, unrelated to META. The stalkers used the following platforms to contact me: Facebook, Instagram, Messenger, and WhatsApp.
